Public Lecture Meeting Direct Tax Provisions of the Finance Bill, 2018

After implementation of GST, the next significant event on the tax and economic front is the Union Budget 2018. This Budget will mark the beginning of a new public accounting process in India. The NDA Governments under Prime Minister Narendra Modi will present its 5th Union Budget on February 1, 2018. As the nation waits to know the changes in Tax Rates for individuals and corporates, they significantly also expect simplification of assessment procedures and changes in the limits for various allowances considering the rising cost of living.

Will there be some major changes to improve the rating for ease of doing business in India? How will the budget stimulate growth in various sectors of the economy? Will the budget bring down taxes on investment? Will the stock markets witness same growth in 2018? The country is eagerly waiting to know.... possibly the last full-fledged Budget of the current government, as general elections are due in 2019.

The Country waits to listen...

Joining hands with the BCAS for spreading knowledge far and wide, Shri S. E.
