“Unilateral, Bilateral and Multilateral solutions for digital economy challenges”
-A Lecture Meeting

Dear Members,

We are at a very interesting times where the rules for international taxations are getting rewritten. Getting a technical solution is a mammoth problem and getting a political agreement is equally challenging. While few countries attempted unilateral approach, United Nations (UN) adopted bilateral approach and OECD Inclusive Framework is yet developing multilateral solution. All three approaches have its own challenges. The session will deal with all three approaches.

The session will also cover the concept of UN MLI. Currently the UN Tax Committee is working to develop UN MLI.

The details of lecture meeting are as under:

| | |
|-----------------------|---|
| Topic | “Unilateral, Bilateral and Multilateral solutions for digital economy challenges” |
