Social Audit of Social Enterprises -A lecture meeting

Dear Member,

A social audit of a social enterprise in India is a review of the entity's social and environmental impact, including its compliance with laws and regulations, adherence to ethical standards, and overall effectiveness in achieving its social and environmental goals. This may include conducting interviews with employees, stakeholders, and community members, reviewing financial and operational data, and conducting site visits. The social audit results are typically shared with the entity, its stakeholders and the public to promote transparency and accountability.

The Finance Minister in her Union Budget 2019 speech, introduced the concept of a Social Stock Exchange in India, enabling the listing of social enterprises and voluntary organisations at the Stock Exchange. The concept created a scope for Social Audit and shall be elaborated by CA Sangeeta Kumar during the lecture meeting.
